RE: Amendment Updating Plates 2-1, 2-2, and 2-3 to Show 1988 Acquisitions of Surface Property and More Recent Acquisitions of Federal and Fee Coal, Co-Op Mining Company, Bear Canyon Mine, ACT/015/025-92R, Folder #2, Emery County, Utah

SYNOPSIS

The permittee submitted this amendment for Division approval on December 4, 1992. The amendment consists of 3 plates, 2-1, 2-2, and 2-3, which were revised in November of 1992. The plates were revised to show federal leases, fee coal, and surface property which have been acquired by the permittee since 1988.

ANALYSIS

The revised plates now show Federal Leases U-020668, U-024316, U-024318, U-38727, and U-46484. Fee coal and surface properties now owned by the permittee, most of which are located east of the Blind Canyon fault, are also now shown. Federal Leases U-024316 and U-024318 were acquired from Peabody Coal Company. All other federal leases, fee coal, and surface property were acquired from Nevada Power Company.

The revised plates clearly show the boundaries of the permit area, all surface areas and fee coal owned by the permittee, and all federal leases held by the permittee.

RECOMMENDATIONS

It is recommended that the revised plates be approved and included in the approved Mine Plan.
